Förbundet representerar International Practical Shooting Confederation (IPSC) i Sverige.

## Information om testdivisionen Nordic Production Optics

### Regelverk

Det regelverk som ska användas är det bifogade Appendix D7 Nordic Production Optics Division (Trial).

Regelverket gäller från och med 2017-09-30. I första hand gäller det till 2020-12-31, såtillvida det inte genom meddelande från SDSSF antingen förlängts innan periodens utgång eller av något skäl avbrutits i förtid.

Regelverket upphör automatiskt att gälla om divisionen Production Optics antas av IPSC General Assembly.

### Matchregistrering

Tävlande ska registreras i divisionen Production Optics. Denna division finns angiven i ShootnScoreIt.

### Matchrapportering

NROI kommer att lämna närmare anvisningar för hur divisionen ska rapporteras i matchrapporteringen. Bland de uppgifter som kommer att samlas in kan nämnas:

- antal tävlande i divisionen
- ungefärlig fördelning av typ av montage för optiken (på manteln respektive på stommen)
- om det var skillnad i hur olika vapen/montage klarade utmaningarna i tävlingen och vad denna skillnad i så fall bestod av
- om det noterades någon skillnad i felfrekvens vad gäller olika sätt att montera optiken

### Tävla internationellt

Det regelverk som används under testperioden är gemensamt för de nordiska länderna. Skyttar som önskar tävla i Production Optics internationellt uppmanas att i god tid kontakta arrangören för tävlingen och efterhöra vilka regler som gäller just där.

/Styrelsen för SDSSF, 30 september 2017

<b>Appendix D7: Nordic Production Optics Division (Trial)</b>		
1.	Minimum power factor for Major	Not applicable
2.	Minimum power factor for Minor	125
3.	Minimum bullet weight	No
4.	Minimum bullet caliber / cartridge case length	9 mm (0.354") / 19 mm (0.748")
5.	Minimum bullet caliber for Major	Not applicable
6.	Minimum trigger pull (see Appendix E4a)	2.27 kg (5 lbs.) for first shot
7.	Maximum handgun size	Maximum barrel length 127 mm
8.	Maximum magazine length	No
9.	Maximum ammunition capacity	Yes, see below
10.	Max. distance of handgun and allied equipment from torso	50 mm (see Rule 5.2.5)
11.	Rule 5.2.10 / Appendix E2 applies	Yes
12.	Optical/electronic sights	Yes, see below
13.	Compensators, ports, sound and/or flash suppressors	No

### **Special conditions:**

14. Only handguns listed as approved on the IPSC website may be used in Nordic Production Optics Division. Note that handguns deemed by IPSC to be single-action-only are expressly prohibited. The official IPSC protocol used to measure barrel length is described in Appendix E4b.

15. Handguns with external hammers must be fully decocked (see Rule 8.1.2.5), at the Start Signal. First shot attempted must be double action. Competitors in this Division who, after the issuance of the Start Signal and prior to attempting the first shot, cock the hammer on a handgun which has a loaded chamber, will incur one procedural penalty per occurrence. Note that a procedural penalty will not be assessed in respect of courses of fire where the ready condition requires the competitor to prepare the handgun with an empty chamber. In these cases, the competitor may fire the first shot single action.

16. Original parts and components offered by the OFM as standard equipment, or as an option, for a specific model handgun on the IPSC approved handgun list are permitted, subject to the following:

16.1 Modifications to them, other than minor detailing (the removal of burrs and/or adjustments unavoidably required in order to fit replacement OFM parts or components), are prohibited. Other prohibited modifications include those which facilitate faster reloading (e.g. racking or charging handles, flared, enlarged and/or add-on magwells, etc.), changing the original color and/or finish of a handgun, and/or adding stripes, stippling or other embellishments.

16.2 Magazines accessible to a competitor during a COF must not contain more than 15 rounds at the Start Signal. Identifying marks or decals, internal capacity limiters, bumper pads and additional witness holes, which add or remove negligible weight to/from magazines, are permitted.

16.3 Sights may be trimmed, adjusted and/or have colors applied. Sights may also be fitted with fiber optic or similar inserts.

17. Aftermarket parts, components and accessories are prohibited, except as follows:

17.1 Aftermarket magazines are permitted, subject to 16.2 above.

17.2 Aftermarket sights, mounts and mounting plates are permitted, provided their installation and/or adjustment requires no alteration to the handgun.

17.3 Aftermarket grip panels which match the profile and contours of the OFM standard or optional grip panels for the approved handgun and/or the application of tape on grips (see Appendix E3a) are permitted. However, rubber sleeves are prohibited.

18 Optical sights can be mounted to any existing sight fixing points (slide, rails or similar fitting points). Additional weights, racking or charging handles (or similar adjustments which facilitate faster reloading or racking) cannot form part of the optical sight or its mounting.

19. This division will expire on 31 December 2020, unless previously extended, and undergo yearly revision.
